

SE 216 – SOFTWARE PROJECT MANAGEMENT STAKEHOLDERS DOCUMENT

PROJECT NAME:SHARPFRIDGE

GROUP MEMBERS: Berkay Işık, Canercan Demir, Kaan Dönmez, Merve Topal, Yağmur Duvan, Yiğit Mora

#	STAKEHOLDER	DESCRIPTION
1.	Chain Restaurant Owners/Managers	They are the primary stakeholders as they are directly impacted by the inefficiencies of traditional refrigeration systems economically.
2.	Restaurant and Kitchen Staff	They interact directly with the refrigerator system on a daily basis. They are the group that benefits most from the system's interface and functionality to food storage and retrieval processes.
3.	Customers of the Restaurant	Indirectly impacted by the quality of food served at restaurants. Because of the freshness and quality of the food items stored in the refrigerator system affects their dining experience, they are also stakeholders.
4.	Environmental Conservation Organizations	They are concerned with reducing food waste and minimizing environmental impact. The effectiveness of the intelligent refrigerator system help to reduce food waste and promote sustainable practices.
5.	Suppliers/Vendors	Since they are provide food items to chain restaurants, the food items they supply must be stored properly and maintain their quality. Therefore, it minimizes losses for both parties.
6.	Regulatory Authorities	They are responsible for ensuring compliance with food safety and storage regulations and smart refrigerator system helps chains to ensure food safety.

SE 216 – SOFTWARE PROJECT MANAGEMENT

STAKEHOLDERS DOCUMENT

7.	Technology Providers	<p>Companies providing sensor technology, make profit by developing software development tools, and other technical components.</p> <p>The successful implementation and adoption of their technology in the intelligent refrigerator system will increase their value.</p>
8.	Food industry journalists, bloggers, and influencers	<p>Their coverage can influence public perception and awareness of the intelligent refrigerator system.</p>
9.	Competitors	<p>Competitors contain other companies developing similar intelligent refrigeration systems or alternative solutions to address food storage inefficiencies and developers of traditional refrigerators.</p> <p>SharpFridge's reactions and strategies may influence the direction and marketing of the other companies.</p>
10.	Developers of SharpFridge	<p>Since they are spending their workforce and budget on this project, the sales figure and maintenance of SharpFridge can determine their branding and help their company grow.</p>
